

# Marshall Fagin DDS

Prosthodontist - Educator

All of my programs are designed for the general dentists looking for ways to improve productivity, efficiency, and control over fixed prosthetic outcomes.

Providing dentists with the latest techniques, materials and philosophies that they can return to their office with the very next day and implement is ranked high amongst those who have attended my courses.

These are full day programs but have also been condensed as two half-day programs.

## EMAIL THIS TO A FRIEND

I look forward to hearing from you and discussing options in more detail with you

## Looking for fresh material in prosthodontics and dynamic speaker?

Dr. Fagin has been presenting continuing education courses both nationally and internationally for over 35 years?

## Some of my most popular courses are:

- ***“Tips & Tricks to Achieve Excellent Outcomes in Fixed Prosthetics: Pearls to use on Monday”***

- ***“Addressing the Challenges & Solutions to Anterior Implant Esthetics from Treatment Planning to Completion”***

- ***“Trouble-Shooting & Predictably Resolving many of your Fixed Prosthetic Problems”***

- ***“The Nuts & Bolts for Success in Implant Dentistry”***

## What dentists are saying that have attended:

*Enthusiastic, passionate, with many helpful techniques and materials Very engaging Smooth, confident, practical - Wish I had brought my whole team.*

John Tucker, DDS, of Erie Pennsylvania said, *“I was able to use information from Dr. Fagin’s program immediately in my practice to provide outstanding patient treatment results. His program was one of the most meaningful and powerful programs I have attended”.*
